

TYPHOON EVICTOR™

extreme cleaning for drilled holes

MADE WITH THE TOUGH:

Typhoon
pro

HIGH VOLUME BLOW GUN

24" EXTENSION TUBE
reach the bottom of the hole

EXTREME EVICT TIP™
pull debris out the top of the hole

TYPHOON VARIABLE CONTROL TRIGGER
alter the volume of the air

Ideal for: Cleaning holes in concrete, brick or CMU before adhering rebar, threaded rod or anchor.*

Typhoon Evictor™ / TYP2501-24HN

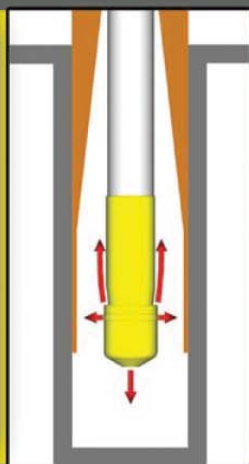

ENLARGED DETAIL OF
EXTREME EVICT TIP™

WHY DO I NEED TO CLEAN OUT THE DRILLED HOLES?

DRILLED HOLES MUST BE FREE AND CLEAN OF ALL DUST AND DEBRIS IN ORDER TO PROPERLY ADHERE THREADED ROD, REBAR OR ANCHORS IN CONCRETE, BRICK OR CMU.

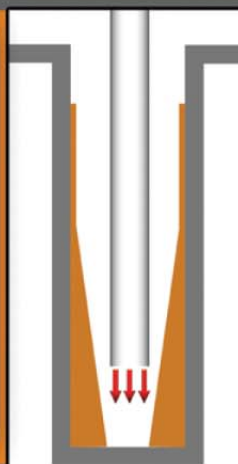

HOW THE EVICTOR DOES A BETTER JOB THAN OTHER BLOW GUNS:

The TYPHOON EVICTOR™ is specifically designed to clean drilled holes. Its EXTREME EVICT TIP™ generates a specific air path to quickly and efficiently remove debris. The orange area of this diagram shows the path from which debris is "evicted" from the hole.

Other blow guns only direct the path of air downward. Debris remains trapped by the flow near the bottom of the hole. The orange area represents the distribution of debris.

Materials

BODY OF GUN = Chrome Plated Aluminum
EXTENSION = Zinc Plated Steel and Brass

Dimensions

INLET = 1/4" NPT
LENGTH OF EXTENSION = 24"

Specifications

MAXIMUM INLET PRESSURE = 150 PSI

EXTREME CONSTRUCTION
accessories

from *Manufacturers of quality pneumatic accessories since 1969.*

* APPROPRIATE SAFETY PROTECTION SHOULD BE WORN WHILE OPERATING ANY BLOW GUN.
